

Identifying your fleet day and night

ALPHA NUMERIC LED FLEET NUMBERS

The Alpha Numeric LED Fleet Numbers have been designed to allow machines to be easily identified from a distance. The LED fleet numbers are clearly visible during the day and at night, making identifying machines a fast and simple process. The LED fleet numbers can be programmed to make any alpha numeric combination up to four (4) digits.

The ability to program the numbers allows maintenance staff to change numbers from machine to machine. The alpha numeric LED fleet numbers are designed for mining and industrial applications, such as mining machines, buses, loaders and transport trucks.

Powder coated steel and with a IP67 rating, the alpha numeric LED fleet numbers are built to withstand the harshest of operating conditions.

Features

- Programmable up to four (4) digits
- Red SMD LED display
- RS232 programmable (stored to internal EPROM)
- Robust, vibration and corrosion resistant housing
- Easy and fast to program
- Long life
- Increases visibility
- Low current draw

Specifications

Digit height	200mm
Voltage	12 / 24VDC
Rating	IP67
