AUSPROTEC™

Lighting solution for panel and cabin applications

LED Interior Cabinet Lighting

The Led Interior Cabinet Light has been designed to suit panel and cabin applications. Using 3rd generation LED technology these 12 / 24v lights are easy to install, fit neatly into corners offering a 180 degree light output. These units are made from powder coated aluminium brackets with a polycarbonate lens and are available in 10 and 21 inch versions.

Features

- High output 3rd generation LED technology
- Single or dual light models
- Low current draw
- 12-24V operation
- Powder coated aluminium bracket
- Easy installation
- Fit neatly into corners
- Lens optics offer 180° light output
- Polycarbonate lens

Specifications

Lens	Polycarbonate
