

Effective light source in a compact and robust body

Nordic Heavy Duty LED Lamps

Advanced electronics and lens design produces a 30% increase in light output over standard N25 LED worklamp models.

The N25 LEDX worklamp is designed for heavy duty applications requiring a powerful light source in a compact and robust body.

Housed within the uniquely designed aluminium body are 5 high output LEDs. These powerful LEDs produce a colour temperature higher than that of sunlight, reducing eye strain and operator fatigue.

Incorporating fully encapsulated electronics (sealed to IP68) and an operating range of 12 to 80 volts, the N25 LEDX worklamp is suitable for almost any application.

Features

- 10-80V operation
- ultra low current draw - 0.7 @ 24V
- Over voltage, over temp, spike and polarity protected
- Heavy duty ant-vibration cast alloy body IP68
- latest LED technology with a life-span of up to 50,000 hours
- Extreme shock resistance
- Environmentally sealed cast alloy body IP68
- Whiter than day light colour temperature 6000K
- Deutsch DT series 2 pin connector on fly lead

Specifications

Voltage:	12 - 80V
Input current:	0.7 Amps @ 24V
Max power consumption:	17 Watts
LED lifetime:	50,000 hrs
Connector:	Deutsch DT series 2 pin
Mount:	Single bolt M10
Shock:	60 G
Vibration:	8Grms 24-2000Hz
Lens:	PC
Body:	Aluminium
Weight:	0.9kg
IP rating:	IP68
Salt mist:	ISO 9227
EMC:	ISO 13766, ISO 14982, ISO 7637-2, EN 12895
Operating temperature:	-40C to +50C
Colour temperature:	6000K
Light source:	5x Cree XR-E LEDs
