

COMFORT FOR OPERATORS IN HARSH ENVIRONMENT

Teleremote Cabins

For the ultimate in operator comfort, the Control Master® Teleremote Cabins are designed for the harshest of mining conditions.

Lightweight in design and easy to transport, the Control Master Teleremote Cabins are the perfect solution for the harshest of mining conditions.

An inbuilt barrier system and air conditioning, the Teleremote cabin is positioned to provide remote control machine operators with the best of both worlds: air conditioning, power steering and a view that allows the operator to work safely and efficiently.

The Cabins also come with a built-in transport system for easy transporting.

The Teleremote cabin sets the standard for productivity and remote control operation.

Features

- Heavy duty construction
- Smoke detectors
- Internally insulated
- Underground specified high voltage components
- Wiring for two way radio
- Fitted with 27 inch LCD Monitors
