AUSPROTEC™

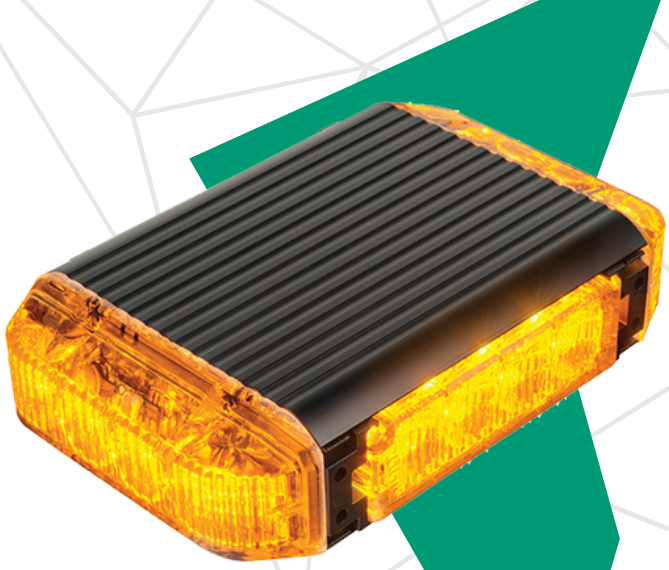
ONE LIGHT, DUAL OUTPUTS

Colour Change LED Mini Light Bar

The AusProTec LED colour change light bar is cleverly designed to make surrounding personnel aware of a machine's status.

A trigger wire will interchange the light from amber to green to convey whether the machine is safe to approach.

The low profile and compact design is ideal for installation on small to medium sized machines.



Features

- Compact in design - 165mm (6.5") long and 44mm (1.73") high
- 14 flash patterns
- Utilising the latest high output LED technology
- Multi-voltage
- Full 350 degree light dispersion
