

# Superior clarity, reliable and easy recording

## 2 Channel SD Card DVR Recorder

The Maxi Vision® Digital Video Recorder (DVR) is robust in design and ideally suited to industrial and mining applications.

Housed in an aluminium casing, this IP69K-rated recorder is designed to stand up to the harshest of environments.

Automatically recording events (20 seconds pre and post), this multi-voltage unit comes complete with GPS antenna, remote control and two camera inputs.

View all recorded images on-screen (two camera view including displayed GPS co-ordinates and GPS speed indicator).

Images are easily downloaded by the Maxi Vision® PC Viewer showing over speed, events, driving route, speed, time, location and GPS tracking via Google Maps interface (Terrain or Map display available).

This all-in-one unit is your solution for driver management, events recording, machine monitoring and training.

### Features

- IP69K waterproof
- All diecast case
- SD card cover locking system
- Wi-Fi (optional)
- Compact design
- 2-trigger wire input

Wi-Fi available upon request but dependant on FTP server access.
