

Prevent Engine Damage

AIRCLEANER RESTRICTION CAN CAUSE MAJOR ENGINE DAMAGE

Engine Air Cleaners are critical to machine reliability.

Regular maintenance on Air Cleaners ensure there is clean air getting to the engine.

The Muirhead Air Cleaner restriction Panel is designed to monitor the machine engine Air Cleaner. The Panel displays when the Air Cleaner is blocked.

The Panel has both audible and visual warning.

The Panel is supplied with a Vacuum switch as a kit.

Features

- Simple in design
- Easy to install and maintain
- Audible and Visual display
