

Greater control and confidence, reducing workplace incidents

Forklift Speed Limiters

With speed being one of the major contributors to forklift accidents, the Muirhead® Forklift Speed Limiter provides a safe reliable solution for controlling speed in all forklift applications.

The system can be supplied to both cable and electronic throttle systems and is designed to interface into machine wiring either as a plug and play or following simple instructions.

The Forklift Speed Limiter has a built-in safety circuit that prevents overspeed in the event of faulty speed signal or system disconnection.

RCT design forklift speed limiters to suit a wide variety of machine types and models.

The kit can also interface into any of the RCT speed zone systems to enhance the speed control on your site.

Features

- Increases workplace and forklift safety
- Reduces speed related injuries
- Reduces fuel, running and maintenance costs
- Extends vehicle service life
- Assists in maintaining OHS procedures.
- Secure speed programming
- Bluetooth to serial programming link available when on machine programming is unsafe

Parts

APN: 2694	USB TO SERIAL ADAPTOR
APN: 6000	FORKLIFT SPEED LIMITER KIT 12V CABLE THROTTLE GENERIC WITH VDO E-GAS ACTUATOR
APN: 7000	FORKLIFT SPEED LIMITER KIT 24V CABLE THROTTLE GENERIC WITH VDO E-GAS ACTUATOR
APN: 7290	KIT SPEED LIMITER GENERIC FBW DUAL TPS
APN: 9990	POWERMASTER SOFTWARE
APN: 10795	PROGRAMMING LEAD TO SUIT 11094 / 11186 / 10452 SPEED LIMITER
APN: 12531	BLUETOOTH USB TO SERIAL LINK
