

LIGHT WEIGHT BUT BUILT TOUGH TO REMOTE CONTROL IN ANY CONDITIONS

MTX1000 - The Micro Transmitter

The Micro Transmitter (MTX1000) is the latest addition in the ControlMaster® radio remote control range; delivering safe and reliable remote control operation for the industrial and mining markets.

It has been designed with the same operating platform as the ControlMaster® ATX2200 - a leading remote control in the mining industry with well over 1500 units deployed globally. The MTX1000 has the same proven operating system conveniently packaged into an even lighter remote control.

The MTX1000 includes a graphical display, proportional joysticks, dead-man and control buttons for all standard machine controls. It is supplied with 2.4 Ghz Bluetooth radio capable of distances well over 500m LOS. The MTX1000 has a fast recharge time, and the lithium-ion battery ensures continuous operation for more than 16 hours.

The MTX1000 has a strong exterior built to withstand the harshest conditions and at the same time it weighs less than 1.5kg - making it one of the finest remotes available on the market.

The MTX1000 is matched to the smaller, hardier MRX1000 receiver which will to all machine types.

For machine specific interfacing please contact RCT.

Features

- Light weight
- Fast recharge
- Full proportional joysticks
- Clear graphical colour display
- Adaptable across all machine types
- IP67

Specifications

Weight with battery	1.25kg
Charge time	3 hours
Display	Colour 180deg viewing angle
Operating temp	-15deg C to +65deg C
Dimensions	H 68mm x L 77mm x W 20 mm
Operation	16 Hours continuous
