

Designed to your needs not others

Customised Vision Solutions

The AusProTec™ Maxi Vision range of vision systems has been specifically designed for the harshest of environments. Using state of the art technology and the highest quality of componentry these systems are designed to last in any environment.

With the ability to customise these systems to multiple applications allows the Maxi Vision range to shine above all others. With specifically designed mounting, enclosures, wiring and the flexibility to adapt to any installation, Maxi Vision stands head and shoulders above the rest.

Please contact your nearest RCT branch to discuss your tailor-made solution for all your vision applications.
