# Custom remote control operations for efficient work solutions

## REMOTE CONTROL TRAILER CABIN

The Control Master® Remote Control Trailer Cabin (RCTC) is a custom engineered solution designed to provide remote control operators with an ergonomic, safe and productive portable working station. The RCTC provides a semi panoramic view of the remote controlled machine, improved noise suppression and climate controlled work environment. The RCTC is manufactured to a high build quality standard and is easy to maintain and service.

The Control Master® RCTC is capable of operating both line of sight and/or Teleremote applications. The RCTC is ideal for surface mining and industrial applications, such as remote control dozers, drills, loaders and skid steer loaders. Each RCTC solution is self-contained and comes standard with climate control, operator control chair, power supply options, cabin storage, lighting, window blinds, 240 VAC power supply and much more.

- Portable remote control solution providing great operating flexibility
- Provides a safe and comfortable working environment
- Reduces the risk of operator injury and fatigue
- Fully self-contained, capable of operating under mining conditions
- No infrastructure costs
- Easy set up of work areas
- Base Model Features:
  - Galvanized chassis and frame
  - Paint (2 pack finish)
  - Floor covering (anti slip vinyl)
  - Windows, blinds, wipers and washers
  - Entry door and steps anti slip
  - Operator control chair
  - Folding observer seat
  - Side console
  - Front dash
  - Reverse cycle air conditioner
  - Radio / CD player
  - Fire extinguishers
  - Mine electrical standards
  - Cable ducting/circuit breakers
  - Aerials and bulkheads
  - Ring type tow coupling
  - Trailer lamps
  - Beacon/flag
  - Barrier storage
  - Cable storage
  - Batteries and isolator
  - Lighting (internal and external)
  - Battery charger 240 VAC
  - Mains power connection 240 VAC
  - Locker area (lockable)
