

Be safe, be smart, be efficient

SmartAlign Forklift Laser Alignment Light

Enhance lifting and loading activities across your industrial machine fleet with the AusProtec™ SmartAlign Forklift Laser Alignment Light. This compact product incorporates a laser beam and rechargeable battery pack which can be mounted to any type of industrial equipment such as forklifts and reach trucks. Fitted to your forklift in-line with the machine tynes, will act as a visual guide for the machine operator when aligning the tynes into pallets. This allows for a precise forklift loading/unloading activities to improve safety across your logistics site and promotes fleet efficiency.

This solution contains a class 2 laser which is safe to use around your workforce and will meet most industrial safety rules and regulations. The compact battery pack offers between 50-70 hours of operating time and the alignment light can be switched on and off by the machine operator with a remote control.

No drilling or tooling are required for installation, both the laser and the battery pack are supplied with high strength magnets for mounting.

Features

- Class 2 laser technology
- Wavelength - 515 nm with integrated line generating lens
- Lifespan of 30,000 hours
- Battery life: 50 to 70 hours
- Light and compact
- EMC-CE compliant

Parts

APN: 16177 GREEN LASER ALIGNMENT LINE LIGHT 12VDC
